

## About ClearOne Advantage: Who are you guys?

ClearOne Advantage provides debt resolution services for consumers with high-unsecured debt balances. An alternative to credit counseling, debt consolidation, and bankruptcy, the company's 24-48month Debt Resolution Program helps clients get out of debt at the lowest personal cost.

By negotiating with unsecured creditors on the consumer's behalf, the ClearOne Advantage Debt Settlement Program often obtains resolutions that are lower than debt balances\*. The program works within consumers' budget constraints to lower monthly payments while still paying off debt balances, and - unlike debt consolidation - does not shift unsecured debts to secure debt.

We have a satisfactory rating from the BBB, indicative of how we service clients. We are members of TASC, The Association of Settlement Companies. We are members of USOBA the United States Organizations for Bankruptcy Alternatives.

*\*Individual results may vary and are dependent on successful completion of program and ability to save funds. ClearOne Advantage does not assume or pay any debt, nor does it provide legal advice or offer credit repair. Read and understand the contract terms before enrolling.*
